

3M™ Print Wrap IJ180mC-10 Film

- The industry's go-to film is fine tuned for wraps using Comply™ Adhesive with micro technology non-visible air release channels for fast, easy, bubble-free installations
- Slideability and initial tack optimized for wraps
- Pressure-activated adhesive for easy sliding, tacking, snap-up and repositioning
- Excellent hiding power; flexible; conforms to compound curves, corrugations and rivets
- Stretches 130% without primer and will not lift
- Removable with heat and/or chemicals
- Excellent liner release
