

# WRAP & APPLICATION TOOLS

## **3M391X AIR RELEASE TOOL**

Pen like tool used to puncture film and release trapped air bubbles. Fits right in pocket  
Includes pen & 1 replacement tip

## **3M MPP1 AIR RELEASE TOOL**

Saves time over rivets as multiple pins require single puncture.  
Extra pins stored in handle.

## **3M CMP-1 MAGIC PAD APPLICATOR**

Foam pad is helpful for conforming films around protrusions, edges and tight areas using heat and pressure.

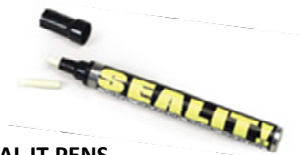

## **3M Primer 94**

Adhesion promoter for difficult surfaces, complex curves, and deep grooves. Perfect for difficult wrap applications.

## **3950 Edge Sealer**

Seals exposed edges of films to help prevent lifting due to environmental exposure, handling or cleaning.

## **SEAL IT PENS**

Filled with "One-Shot" brand 4005 UV blocker clear. Creates fast drying, long lasting edge seal.

## **FELT HALF MOON SQUEEGEE**

2.5" Radius half moon felt squeegee. Dense core, soft full wrap felt will not damage prints. Ergonomic design eliminates hand fatigue.

## **CPA-1 POWER GRIP APPLICATOR**

For use with Comply films. Covers large area with uniform pressure. Felt wrapped edge for near bubble free application.

## **3M GOLD & BLUE SQUEEGEES**

Durable, reusable hand applicators. Choose from the economical Blue, or the nylon reinforced Gold.

## **RAPID TAC**

Application fluid that allows for one person to "wet apply" large graphics quickly without leaving a residue. Available in quarts & gallons.

## **RAPID REMOVER**

Non-toxic, water soluble adhesive remover that breaks down glue in as little as 60 seconds. The #1 selling adhesive remover!

## **3M SA-1 LOW FRICTION SLEEVE**

Use this paper sleeve over the gold or blue squeegee to protect surfaces from scratches.
